NOTE TO AUTHORS

Manuscripts for publication should be submitted to the Editorial Office at the following address: Editorial Office of "Nuclear Physics A", Matrix Building, Science Centre WCW, Kruislaan 419, 1098 VA Amsterdam, The Netherlands; Telephone +31 20 5618161; FAX +31 20 6654969. The Editorial Office can be reached by e-mail at npa@nikhef.nl. Contributions should be accompanied by a covering letter, indicating, in case of joint authorship, to whom further correspondence, proofs, etc. should be addressed. Authors should take care that their contributions are written in good English, French or German, "broken" English is not acceptable.

Manuscripts should be prepared in accordance with the **Instructions to Contributors** (see page 3 of cover). Experimental papers for Nuclear Physics A contain an index of **keywords** (see Nucl. Phys. **68** (1965) 1).

All papers are subject to refereeing. "Letter-type" contributions and unnecessarily long papers are unacceptable. Authors should make every effort to achieve the utmost concision compatible with clarity. They should make a careful survey of the literature to ensure that papers do not duplicate previous work and that relevant existing knowledge has been taken into account. It should be realised that the criteria for refereeing are very high. **At present about 50% of the papers submitted are immediately acceptable.**

The Editors and Publishers aim at the following **time schedule:** within one week of submission the Author should have received acknowledgement of receipt of his manuscript. Within two months (normally within one month) he should have had notification of acceptance or rejection, or a request for revision. After receipt of an acceptance card, he should receive proofs within six weeks. Finally, six weeks after returning the corrected proofs, the paper should be published. If this schedule is not adhered to, Authors are requested to notify the Editorial Office and/or the Publisher. For post-acceptance desk-editorial matters reference may be made to the following: M.A. Smits, Nuclear Physics A, P.O. Box 103, 1000 AC Amsterdam, The Netherlands (Telephone: +31 20 5862571; e-mail: nhpnuclear@elsevier.nl).

Nuclear Physics A is published in weekly issues. 15 volumes have been announced for 1993.
Nuclear Physics B is published in weekly issues. 22 volumes have been announced for 1993.

Please address all your requests regarding orders and subscription queries to: Elsevier Science Publishers, Journal Department, P.O. Box 211, 1000 AE Amsterdam, The Netherlands. Tel.: +31-20-5803642, FAX: +31-20-5803598.

Claims for issues not received should be made within six months of publication. If not, they cannot be honoured free of charge.

Books for review on nuclear and particle physics should be sent to the Editorial Office of "Nuclear Physics".

Special regulations for authors – Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.

Special regulations for readers in the USA – This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the US Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970, USA. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1981 may be copied for a per-copy fee of US $2.25, also payable through the Center. (N.B. For review journals this fee is $0.25 per copy per page.) This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promoting purposes, or for creating new collective works. Special written permission must be obtained from the publisher for such copying.

LES HOUCHES SUMMER SCHOOL

The Les Houches Summer School in Theoretical Physics, one of the most prestigious summer schools in the world, was established in 1951. Each year since then, one or two sessions have been held devoted to a particular area of physics in which substantial progress has recently been made.
Retaining the pedagogical and thorough character of the lectures given at the School, the series presents original work, unique reviews and a complete and detailed survey of a field, thus providing a systematic entry into modern physics. Volumes in the series cover a wide range of topics including field theory, particle physics, nuclear physics, history of physics, astrophysics, biophysics, atomic and molecular physics and mathematical physics.

CATALOGUE 1994 ON CD-ROM

Elsevier Science - the world's largest scientific publisher - presents details of all its publications on CD-ROM
Now including all PERGAMON publications

ADVANTAGES

- Easy to use.
- Get more comprehensive information than ever before.
- Make fast and effective searches.
- Find what you want even with incomplete information.
- Compile special lists of products without typing.
- Improve your control of scientific product information.
- Enhance service to clients.

PRODUCT DESCRIPTION

The CD-ROM contains descriptions of all Elsevier products.

- All the journals, with complete information about journal editors and editorial boards
- Listings of recently published papers for many journals
- Complete descriptions and contents lists of book titles
- Independent reviews of published books
- Forthcoming title information
- Book series
- All other products, e.g. software, CDs, dictionaries, wallcharts,

In addition, the CD-ROM features easy-to-use search tools, making the information accessible and useful. For example, searches can be made by subject area, by year of publication, by author/editor or title and by "free text" search.

Full book and journal information can be printed to initiate your order.

If you do not find what you need, or wish to know more about Elsevier's publishing programme, the CD-ROM can supply you with the address and fax number of the correct person to contact.

AUDIENCE

Librarians, booksellers, researchers, agents and information specialists.

SYSTEM REQUIREMENTS

The CD-ROM has been designed to run under Microsoft® Windows™ 3.0, on IBM PC-ATs and compatibles. The CD-ROM is Microsoft® Windows™ 3.1 compatible.

ELSEVIER
SCIENCE PUBLISHERS

The minimum requirements are:

- IBM or IBM-compatible PC with a 80286 or higher processor
- 2 MB or more RAM
- MS-DOS® 3.3 or higher installed
- Microsoft® Windows™ 3.0 (or 3.1) installed
- Microsoft® Windows™ compatible mouse or other pointing device
- VGA graphics adapter (colour or monochrome)
- Hard disk with at least 2 MB free disk space
- CD-ROM drive which is accessible from Microsoft® Windows™
- For faster operation a 80386SX or higher processor is recommended, as well as a fast CD-ROM drive (access time less than 0.4 seconds).

The CD-ROM can be installed in a local area network.

INSTRUCTIONS TO CONTRIBUTORS

1. Manuscripts should be submitted in ***duplicate***, clearly typed on ***one side*** of the paper only, with wide margins and double-line spacing. Original figures should be included; copies of the figures should accompany ***each*** copy of the manuscript. Half-tones should be avoided especially on instrumentation and line drawings.
2. The paper must have a short abstract in English. Experimental papers must have keywords, see below. Section and subsection headings should follow standard pattern in the journal, e.g.:

   2. Experimental method 2.2. THE NUCLEUS ^{69}Zn *2.1.1. Energy levels.*

3. Footnotes (as few and as short as possible) should be typed at the bottom of the page on which they occur. Do not mix footnotes and references.
4. References should be typed as follows:

   Reference to a paper
   1) G.E. Brown, V. Koch and M. Rho, Nucl. Phys. **A535** (1991) 701
   Reference to a book
   2) A. Bohr and B.R. Mottelson, Nuclear structure, vol. 2 (Benjamin, New York, 1975) p. 316
   Reference to conference proceedings
   3) F. Dönau and S. Frauendorf, Proc. Conf. on high angular momentum properties of nuclei, Oak Ridge 1982, ed. N.R. Johnson (Harwood Academic, New York, 1983) p. 143
   References to a laboratory report or preprint
   4) K.G. Boyer, Ph.D. thesis, Los Alamos National Laboratory report LA-9974-T (1983)

   All authors should be listed in full, except in the case of a large collaboration. No comments or remarks should be made in the references.
5. Equations should be ***carefully*** typed or ***clearly*** handwritten, leaving adequate space for the printer's annotations.
6. Tables, which must have a ***short*** heading, should be typed on separate sheets of paper.
7. All ***handwritten*** Greek letters should be underlined in red. The symbol for sum should ***not*** be underlined. Indicate all euclidean vectors by wavy underlining; do ***not*** use arrows.
8. Special attention should be paid to characters that can be easily misread, such as i (lower case), I (capital), l (ell), 1 (one), ' (prime); o (lower case), O (capital), 0 (zero), ° (degree); u, v (vee), ν (Greek nu), V (capital); × (multiplication sign), x, X; 2 (two), z, Z; p, P, ρ (Greek rho); etc.
9. Use the metric systems of units and the abbreviations recommended by the SUN commission of the IUPAP, Physica **A93** (1978) 1. The correct abbreviations of some commonly abused units are: sr, fm, keV, mb. Units ***must*** be correctly abbreviated in the figures.

Papers that have been accepted for publication may be sent as an electronic file to the publisher by e-mail. If the electronic file is suitable for processing by the publisher, proofs will be produced without rekeying the full text. The article should be encoded in ESP-LATEX, standard LATEX (in document style "article") or in REVTEX. Authors should include an ASCII table (available from the publisher) in their files, to enable any transmission errors to be detected. The ESP-LATEX package, together with more detailed instructions on how to prepare a file, is available directly from the publisher upon request. (Nuclear Physics, Elsevier Science Publishers B.V., P.O. Box 103,1000 AC Amsterdam, The Netherlands. E-mail: nhpnuclear@elsevier.nl).

No changes from the version accepted by the Editorial Office of the journal are permissible, without prior and explicit approval.

The publisher reserves the right to decide whether to process a manuscript from authors' files or not. (Articles coded in a simple manner with no complicated macros are most likely to be handled this way.)

KEYWORD ABSTRACTS

Keywords are designed to tell a reader what results are reported in an article and what the authors have concluded from these results. They enable other users to retrieve references to your articles based on indexed subjects determined by the Keywords.

Keyword abstracts are coded into a bibliographic data base (Nuclear Structure Reference File) maintained at the National Nuclear Data Center, Brookhaven National Laboratory, Upton, NY 11973, USA. Four-monthly retrievals from this data base are periodically published in the Nuclear Data Sheets under the title "Recent References". Information from this data base is accessible via the RECON System to scientists in the US and Canada or may also be obtained by addressing a request to the National Nuclear Data Center.

While preparing keyword abstracts, authors should follow the conventions given in Nuclear Physics **68** (1965) 1.

PHYSICS REPORTS

A Review Section of Physics Letters

PHYSICS REPORTS started publication in 1971 and has, over the past 23 years, built up an indisputable reputation as the international review journal for many branches of physics.

PHYSICS REPORTS keeps the active physicist up-to-date on developments in a wide range of topics by publishing timely reviews which are more extensive than just literature surveys but normally less than a full monograph. *Each Report deals with one specific topic.* Although most of these reviews are of a specialist nature, each contains sufficient introductory material to make the main elements intelligible to a non-specialist. The reviews are written in such a way that the reader can distinguish important developments and trends, and is able to identify and access the relevant and original literature.

Every month approximately 6 issues are published and to date more than 1400 reviews have appeared.

All issues of PHYSICS REPORTS are available - at a substantial discount - to individuals under the conditions of our

PHYSICS REPORTS - SINGLE ISSUE ORDERING SERVICE

In this way, researchers are offered the facility to obtain their own personal copies of selected particular Reports at a substantially reduced price.

Depending on issue size, the price will range from US $12.00 to US $24.00 per copy.

To take advantage of this special offer, your order should amount to a minimum of US $125.00 and should be *prepaid* (credit card, personal cheque).

You and your colleagues may also combine your separate orders, as long as the collective order amounts to a total of US $125.00 or more.

To obtain a copy of the PHYSICS REPORTS catalogue, please contact *Jan Visser* or *Harry de Brouwer* by FAX (+31-20-5862 580), or write to:
